

FLEX® CONDUCTOR'S SYSTEM COMPONENTS

A flexible conductor's system that you configure

Now you can build the perfect conductor's system for the way you want to teach, and not just once but whenever your needs change. This brilliant Wenger system adapts to your height, habits, and imagination.

Flex is a harmonious design where all elements work together. It starts with the large, sturdy conductor's stand that adjusts to virtually any position you need. From here you can add our innovative TechBridges in custom lengths with snap-on attachments for MIDI keyboards, laptops, iPads, a workspace and even a drink holder – and each easily positions right where you want it.

The Flex Stand can be used with the entire system or by itself.

FLEX® CONDUCTOR'S SYSTEM COMPONENTS

Don't leave your laptop at your desk. Have it within easy reach on our tiltable attachment.

The centerpiece of the new Flex Conductor's System is the stand itself. It's large, more versatile and rotates, tilts and swivels right where you like it.

MIDI keyboards rest comfortably on the TechBridges. The special keyboard mounts hold most sizes of electronic keyboards.

Clamp on a desktop work surface wherever you like. It's perfect for ipods, mixers, microphones, music books, speakers...

Universal Tablet Mount.

Cup holder attachment.

Set the perfect height for you and then tighten it in place.

Customize the length of your TechBridge with bridge lengths of 2'-8" (610 x 2438 mm).

The TechBridges swivel to just about any angle, allowing you to customize your conducting space.

Is it sturdy? You bet. Heavy, cast iron footings give it a confident foundation.

A traditional set-up of a stand, chair, and double podium.

Put your keyboards right at your fingertips. The laptop mount accessory adjusts to your preferred angle. And a built in fan keeps the base cool. MIDI keyboards – even full size ones – can rest stably on the keyboard mounts.

Universal Tablet Mount accommodates Smart Phones and Tablets from 5" to 13.3" (127 to 338 mm).

"The Flex is perfect for the technology I use in my classroom, including laptop, smart board, iPad, mixer and my iPhone. I think technology greatly enhances teaching when used correctly and the Flex makes this easy."

– Matt Bradford, Director of Bands, Clay Center Schools, Clay Center, Kansas

"The Flex Conductor's System is aptly named - it can be whatever you need it to be. It's awesome! Flex helps me organize my teaching environment - everything I need is at my fingertips without having to turn away from my students."

– Joshua Countryman, Choir Director Brooklyn Center High School Brooklyn Center, Minnesota

"I really like the Flex System's flexibility. It gives me easy access to my laptop computer and the worksurface can also hold my instrument. It's very convenient."

The optional storage basket helps hold commonly used items like rosin or mutes, along with key documents.

– Nancy Epperson, Orchestra Director Lady Bird Johnson Middle School, Irving, Texas

"The Conductor's Podium is very easy to move from room to room and the see-through music stand allows students sitting in the front to still see the Smartboard."

– Brent Poling Director of Performing and Visual Arts International School Bangkok, Thailand
